Proposal 1

Bakers bin

The history of Bakers Bin began in 1999 with its first store in Pretoria. Founded by Marius Erasmus, the business was built on the vision of making baking accessible to everyone from beginners to professionals by offering a wide variety of ingredients and tools at affordable prices.

Mission Statement

The mission of Bakers Bin is to make "baking made easy" for everyone, from just starting home bakers to professional chefs.

"To empower every baker from the curious home hobbyist to the professional pastry chef by providing a comprehensive, one-stop destination for high-quality ingredients, specialized tools, and expert advice. We are committed to making baking easy, affordable, and inspiring for our local communities through passion, innovation, and exceptional service."

Target audience

Bakers Bin serves a community-driven mix of **home hobbyists** looking for easy baking solutions, **small-scale entrepreneurs** needing bulk supplies for their businesses, and **budgetconscious families** who prefer buying specific quantities from bins. Essentially, they target anyone from the "birthday-cake parent" to the professional chef living within reach of a local franchise.

Goals

- The primary goal of Bakers Bin is to be the ultimate one stop shop that makes baking simple, affordable, and accessible for everyone.

Strengths

- Successfully markets the "baking made easy" concept and "one-stop-shop" model.
- Links to active social media pages that handle real-time community engagement.
- Provides a general overview of their diverse range, from bulk raw ingredients to specialized tools.

Weaknesses

- Lack of a centralized platform; information is split across multiple branch pages.
- No real-time online inventory, forcing customers to call or text for availability.

Proposed website features and functionality

- A digital storefront where customers can buy everything from bulk flour to cake pans and pay online.
- A map that automatically shows the nearest branch's live trading hours and local contact info.
- Automatic discounts for bakers buying larger quantities .

Desired Functionality

- Shows if an item is actually on the shelf at a specific branch *before* the customer drives there.
- Automatically calculates delivery fees based on the customer's distance from the shop.
- Short, easy videos showing how bake with the premixes.

The Essentials

- A full online catalogue where customers can buy and pay for ingredients and tools online.
- A map that shows the nearest store's **live trading hours** and local contact details.

Design and user experience

Bakers Bin it is a warm, welcoming space where world of professional baking is made simple.

- Visuals: A signature purple and white palette paired with bold, friendly typography and high-energy images of finished bakes.
- Their branding high-quality photos of finished cakes, colourful sprinkles, and decorated cupcakes. This shifts the focus from the raw ingredients to the inspiring end result.
- Typography: They typically use bold, friendly fonts that are easy to read on storefront signage and bulk packaging

Timeline and milestones

Budget

1. Introduction

This provides a detailed budget estimate for developing a website. It includes costs for domain registration, hosting, design, development, and optional maintenance. The budget is suitable for a small to medium educational or business website.

2. Budget Breakdown

Category	Estimated Cost (ZAR)
Domain Name (per year)	R100
Web Hosting (per year)	R960
Website Design & Development	R2,500 (once-off)
Templates / Design Tools	R300 (once-off)

3. Total Estimated Cost

First Year Total Estimated Cost: Approximately R3,860
